

thank you for your pamphlet "Montréal, a plan to build on"

2 questions. perhaps you might have an answer ....or possibly a solution?

our family is 1 of the (probably) 100 new luxury condo families moving into "Quai des écluses"/  
Lachine Canal.

when i enquired about the "green" box and/or recycling the answer was non committal.

question 1:

is montreal going to deny 300 new condo owners of the "Quai des écluses" project the privilege  
to recycle?

question 2:

after 70 years of tv ownership, montrealers never see any publicity as to what to do with non  
functioning tv sets? people still place broken tv sets beside green bags. then the tv sets (also  
computers) "disappear" in the garbage trucks.

sincerely  
heinz dieter chiba
